

# **[DRAFT]21st Legislative District Democratic Party Meeting Minutes [DRAFT]**

Business meeting held on January 25th, 2017

7:50PM Called to Order  
Motion to adopt the agenda and approved

7:52PM Tabled Meeting Minutes from November approval since they're not presently readily available.

Informal Introductions

We went around the room and have every person introduce themselves so we could get to know one another. Most folks focused on their political histories, but we also heard about peoples activism, their jobs and their passion for the 21st, the democratic party and many of the values held in our district and their contributions to the Democrats.

8:10PM Officers reports

Micah Addressed issues with our communication tools, and the issues with a member potentially suing the district. He also gave a little advice on how to work in our tools to remain respectful. Also looking for members for committees.

Secretary: Thanks for bearing with us while we get our act together and I'm trying to help keep the communication going efficiently and smoothly

Treasurer: Non-Citizens are suffering, and we need to help them and get over our internal democratic in-fighting

County Committeewoman: County report includes "homework" to get lots of voter data to bring back to the county to organize around winning elections, also talked about "Bench" positions, seeking good, progressive candidates to run for roles across the county to inject our agenda across the entire county and ensure that the Republicans do not.

County Committeeman: Our democracy status was downgraded today and we need to fight back!

State Committeewoman: We're in a transition, and we're working to get things turned over from old board to new board - we have 9 new members tonight! Let me know about things for state committee

State Committeeman: Wants your membership ideas to bring to the state and amplify our voices

8:44PM PCO and Membership drive

Micah showed the membership the data on a map about our district and all of the Precincts, those which are occupied and those which are not occupied and held by Republicans. We need to find PCOs to fill the empty precincts and have a PCO in every precinct so that we can take control of the local elections, and how we can strategize to maintain our dominant democratic party status.

8:55PM The chair took about 20 minutes to discuss the varying committees sponsored by

the district, their roles and responsibilities in the organization and solicited volunteers for committee membership. There was a great deal of interest with 3 to 5 people volunteering to participate in every committee discussed.

9:14PM Meeting adjourned.
